

Name:P6 indoor SMD 3 in 1 full color led display

## P6 indoor SMD 3 in 1 full color led display

Features:

- 1.Large viewing angle, 120 vertically and 120 horizontally
- 2.support various interfaces and signal sources
- 3.advanced digital control technology
- 4.support multi-transmission methods
- 5.network control
- 6.automatic brightness control
- 7.super processing ability
- 8.strong colour restoration
- 9.Delicate and soft pictures, nice and neat appearance

Parameter	Value
Configuration	1R, 1G, 1B
Pixel pitch	6.0mm
Density	27777pixel/sqm
Cell board size	resolution:32*16 module size:192*96mm
Package	3528 three-in-one
Priving Device	Surface mounted
Gray level	256
Display color	full color
View distance	6m~50m
Viewing angle	120°
Max power consumption	1100w/sqm
Net weight	20kg/sqm
Thickness	100mm
Luminance	1800cd/m <sup>2</sup>
Characters showeffect	16*16
Individual character minsize	48*48mm
Control method	asynchronows/synchronization
