

P6 indoor full color LED display

1. Aluminium material design, precise size and light weight.
2. Ultra-thin cabinets can be installed flatly with perfect performance.
3. Aviation signal connector, easy to be installed and disassembled.
4. Unique designed cabinet with better heat dissipation

Parameter	Value
Configuration	1R, 1G, 1B
Pixel pitch	6.0mm
Density	27777pixel/sqm
Cell board size	resolution:32*16 module size:192*96mm
Package	3528 three-in-one
Priving Device	Surface mounted
Gray level	256
Display color	full color
View distance	6m~50m
Viewing angle	120°
Max power consumption	1100w/sqm
Net weight	20kg/sqm
Thickness	100mm
Luminance	1800cd/m²
Characters showeffect	16*16
Individual character minsize	48*48m
Control method	asynchronows/synchronization
